

**Features**

- Single and multiple tube
- Variety of colors
- Coil tubing available
- Several sizes to accommodate Pneumadyne fittings

**Performance Data**

Temperature Range	Vacuum	Media	Diameter Tolerances
-40° to 160° F -28° to 71° C	to 28" Hg	Fluids Compatible w/ Materials	±.005

**Polyurethane Tubing**

**Single Tubing**

Pneumadyne offers Ether based Polyurethane (PU) Tubing. Material characteristics include minimal water absorption, high flexibility and opaque color pigments. The extrusion process and exclusive formulation produces a high quality tubing and eliminates surface stickiness.

## Multi-Bore Tubing

### Extruded Polyurethane

Multi-bore tubing is two or more tubes that are extruded as a single piece. The tubes are joined with a tough connecting web. This tubing is ideal for applications that encounter severe or constant flexing which might separate the bond on MCR tubing assemblies. A small rib runs the length of one of the tubes for easy identification. All Multi-Bore tubing is mono-colored and is recommended for use with barbed fittings. Push-to-connect fittings are not recommended, the slightly flat surface resulting from stripping may affect the fittings sealing abilities.

Product Group	OD/ID	Package	Durometer	Working Pressure psi@ 75°F	Standard Colors*

## Multi-Color Ribbon

### (MCR)

85A Durometer

Bonded Polyurethane

Multiple Color Ribbon (MCR) color codes your tubing lines. Great for identification, tracing or trouble shooting, this tubing will withstand the rigors of flexing and rough handling. A unique heat bonding process allows you to easily hand separate the tubing for routing.

### Polyurethane Coils

Polyurethane has outstanding memory and flexibility which make it the ideal material for processing into self-storing coiled tubing. These coils are extraordinarily tough and resistant to abrasion, overstretching and kink damage. Pneumadyne offers coils in every size and configuration of polyurethane in single, multi-tube and even jacketed bundles (contact factory for styles not listed).

Polyurethane coils are extraordinarily tough and resistant to abrasion, overstretching and kink damage

Multiple Color Ribbon (MCR) is great for identification, tracing or trouble shooting

### Product Number Diagram Tubing

**PU 6- 250- 8- L**

#### Tubing Material

- PU= Single Polyurethane
- PU#= Multi-Bore Polyurethane
- PUMC= Multi-Color Polyurethane
- PUC= Polyurethane Recoil

#### Package Size

- C= 100 Ft
- L= 50 Ft
- R= 500 Ft
- LR= 1000 Ft
- XR= 2500 Ft

#### Color Code Opaque

- M= Multi-Color
- 0= Natural
- 2= Black
- 3= Red
- 4= Blue
- 5= Green
- 6= Yellow
- 7= Orange
- 8= Gray
- 9= White
- 11= Purple
- 14= Light Gray

#### Configuration

- 2= two channels
- 4= four channels
- 6= six channels
- 8= eight channels

#### Tube Size (85A)

- 125= 1/8 x 1/16                      375= 3/8 x 1/4
- 156= 5/32 x 5/64                    468= 15/32 x 5/16
- 250= 1/4 x 1/8                        562= 9/16 x 3/8
- 312= 5/16 x 3/16                    750= 3/4 x .467

85A durometer tubing is not indicated in the part number- however the following letters are used immediately after the tube size to indicate alternative tubing durometers. Tube ID will vary- refer to part number listing for tubing dimensions.

#### Transparent

- 25= Red
- 26= Green
- 27= Blue
- 28= Yellow
- 29= Orange
- 32= Purple

- F= 95A                      PB= 90A                      R= 70A

● Please use **Product Diagram** to interpret part numbers - (do not attempt to build part numbers) see product information for part number listing.
